

BUSTER & MOLLY'S

GUIDE TO PONDS

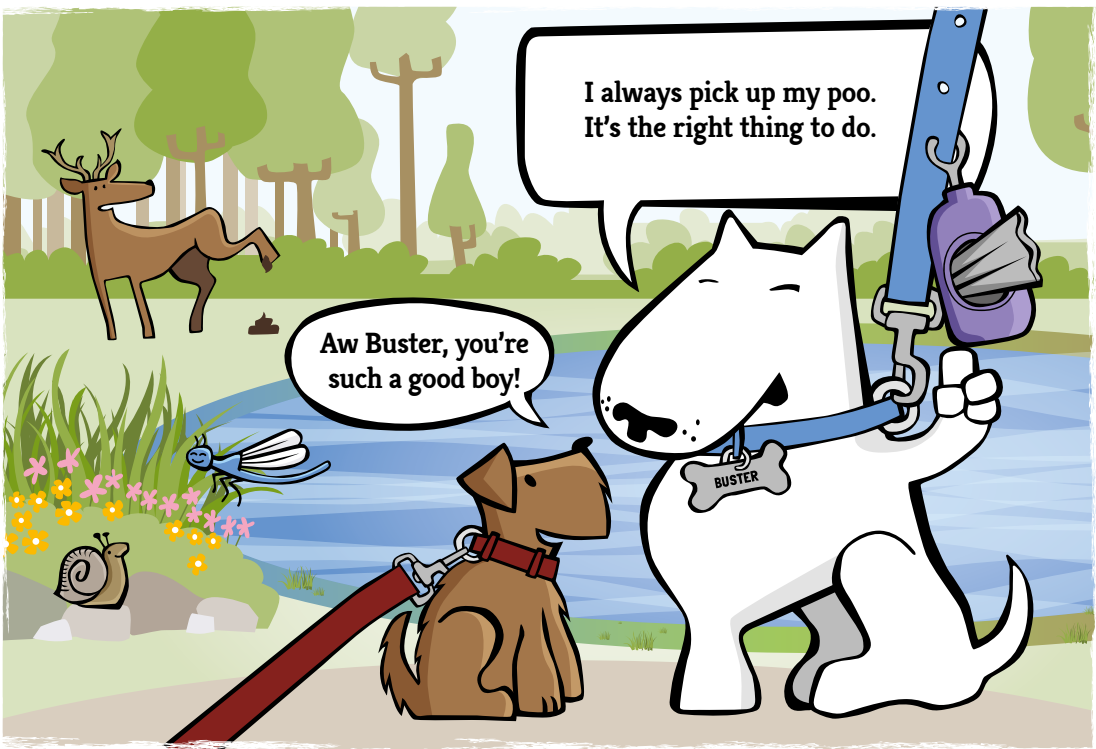

What to do when
taking your dog for a
walk around ponds

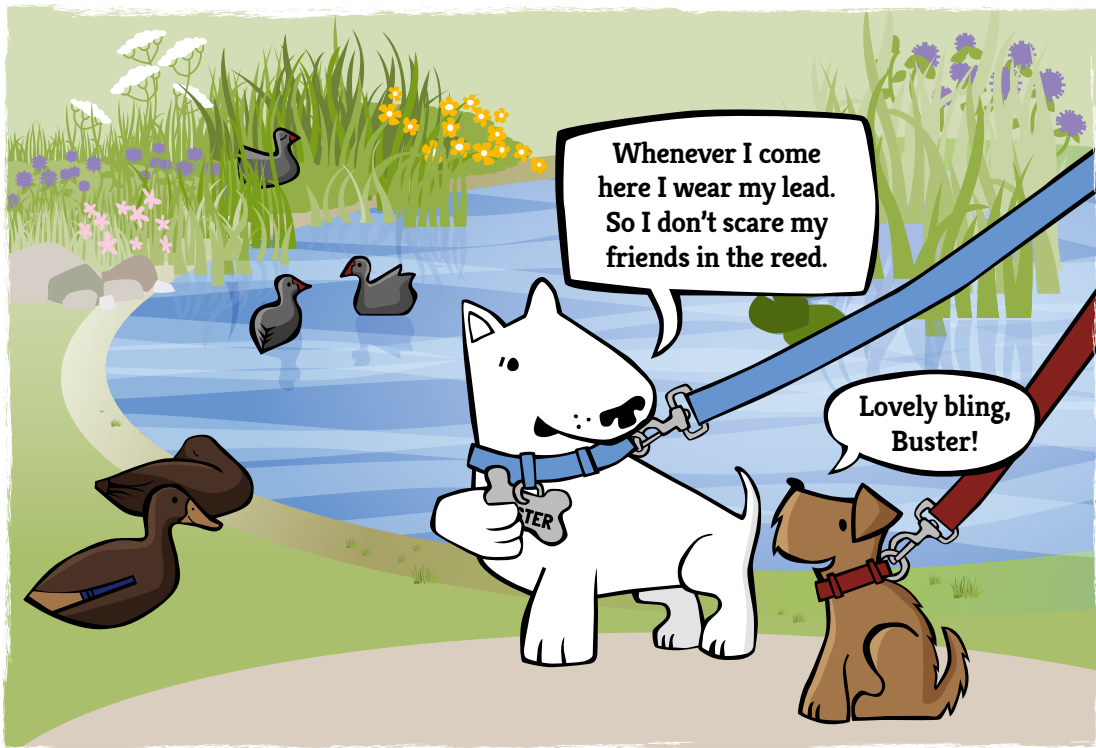

I don't swim here. If I go in the water, it goes all muddy and the lovely plants and animals disappear.

Thanks, Buster!

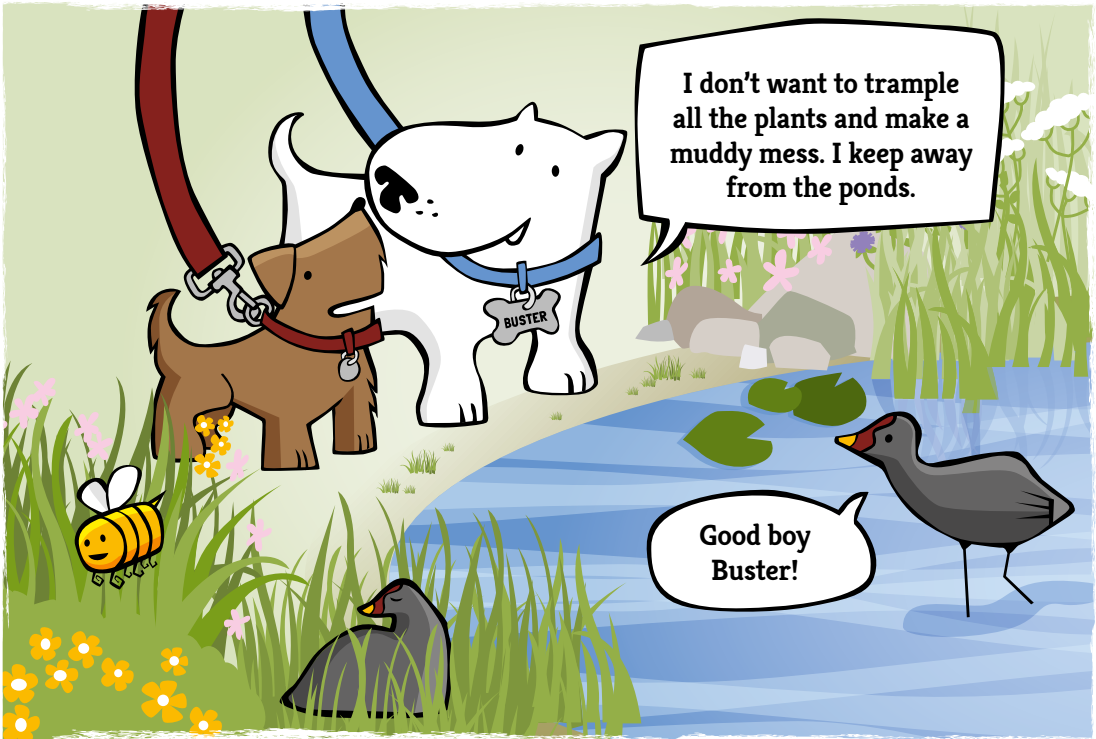

I always pick up my poo. It's the right thing to do.

Aw Buster, you're such a good boy!

Whenever I come here I wear my lead. So I don't scare my friends in the reed.

Lovely bling, Buster!

I don't want to trample all the plants and make a muddy mess. I keep away from the ponds.

Good boy Buster!

It's good to treat wildlife's home like you treat your own, with respect.

When I grow up,
I'm going to be just
like Buster!

Freshwater Habitats Trust is one of the UK's principle research and conservation charities for the protection and recovery of our most endangered freshwater habitats and species. We work in partnership to develop and deliver practical advice to help people manage and create new clean water habitats for wildlife.
